## Christopher S. Duncan

Chris's practice focuses primarily on the preparation and prosecution of U.S. and foreign patent applications. He also has experience preparing patent opinions and conducting *inter partes* reexamination proceedings.

Chris's technical focus is in electrical engineering and software, including electronic circuits, mobile devices, cloud computing, and databases. He also has experience drafting and prosecuting patent applications for mechanical devices and sporting goods. During graduate school, Chris focused on environmental engineering and completed a master's thesis titled "Conservation and Allocation of Slope in Gravity Sanitary Sewer Design."

**Professional Experience**

Shook, Hardy & Bacon, LLP

Kansas City, MO

Associate Patent Attorney (2008-2011)
